

Is it possible to get a key for my room?

Many residents question the possibility of having a key to lock their door when they leave their room. It is now possible to apply for this purpose with management. However, the safety of residents being our concern, these requests will be subject to an evaluation. Here are the criteria:

- The user must be a permanent resident
- The request must be made to the residence's management or to your social worker
- Each application will be evaluated by your social worker to ensure that your health condition allows it
- When you are approved, the installation request is sent
- In all cases, you will be informed of the decision and if there is a delay for the installation

You can call your Argyle / St-Lambert User Committee if you have questions or for assistance: by phone at: (450) 465-1401, ext. 21874 or by email: cduasl@hotmail.com
